

Coronavirus (COVID-19) Cases in Child Care Facilities

The Child Care Program Office collects COVID-19 positive cases for child care facilities statewide. The figure and tables below represent COVID-19 positive cases at Child Care Facilities licensed by the California Department of Social Services, Community Care Licensing Division that have a capacity of at least nine (9) or more children in care. This threshold is in consideration of privacy and security concerns for Small Family Child Care Homes. This report also includes tables for the total number of open licensed facilities for Child Care Centers and Family Child Care Homes statewide in each of California's 58 counties.

Of those facilities that have a capacity of at least nine (9) or more children in care, the figure and tables below identify the counties with eleven (11) or more COVID-19 positive cases, unless otherwise stated. Values of less than eleven (11) are masked (shown as <11) and values of eleven (11) or more that could be used to identify masked values are also masked (shown as **) in accordance with de-identification guidelines. True values of zero appear as "0".

Figure 1: Graph for Child Care Facilities Cases Statewide* and per County* (Data Retrieved: 8/13/2020)

*The Statewide total is the number of COVID-19 positive cases for all child care facilities in California, including facilities with a capacity for fewer than nine (9) children in care and fewer than eleven (11) COVID-19 positive cases among staff, children, and parents.

** The County total is the number of COVID-19 positive cases for child care facilities within that county that have a capacity for at least nine (9) or more children in care and have a total of at least eleven (11) COVID-19 positive cases among staff, children, and parents.
